Professional Summary

Client account and digital project professional with experience since 2021 managing 6 accounts across client relationships, meetings, requirements, content plans, creative briefs, delivery and publishing. Handles performance reporting, scopes, budgets and escalations, and contributes to proposals, renewals and account growth. Experienced in multilingual workflows covering up to 17 languages, with additional website development and IT operations expertise.

Core Skills

Client Relationships | Meetings and Creative Briefs | Content Planning | Team Coordination | Client Approvals | Publishing | KPIs and Reporting | Scope and Budget Management | Escalations | Proposals and Renewals

Buffer | Hootsuite | Zid | Google Workspace | Microsoft 365

Professional Experience

Wida Company | Official Title: Programmer

March 2024 – Present

• Manage 6 client accounts as the main contact, lead meetings, document requirements, clarify objectives and audiences, and develop or review monthly content plans.

• Prepare creative briefs covering ideas, objectives, platforms, formats and deadlines; assign creative tasks and manage delivery priorities and delays.

• Guide creative teams, review copy, design and video, consolidate feedback and revisions, secure approvals, coordinate scheduling and contribute to publishing as needed.

• Monitor reach, engagement and views, prepare and present client reports, and resolve complaints, urgent requests and escalations.

• Manage scopes, deliverables, budgets, costs and additional requests; propose services and contribute to quotations, renewals and account growth.

• Develop and launch client websites and the Wida and ProWorks platforms; manage Wida’s website and bilingual content and guide the programming team.

Riadh Al Afkar Company | Official Title: Programmer

November 2021 – March 2024

• Built and operated client websites, administered hosting, domains, email and business accounts, and provided technical support.

• Coordinated client requirements, creative teams, reviews, approvals, translation handoffs and publishing.

Selected Projects and Client Work

Selected Client Engagements Through Employers

Ministry of Hajj and Umrah, Makhazen Alenaya, Aromatic, Nusuk Hajj and Rasees: full account management covering requirements, planning, coordination, approvals, publishing, reporting, budgets, relationship development and renewals.

• Ministry of Hajj and Umrah: coordinated content, client approvals, translator handoffs and multilingual publishing workflows covering up to 17 languages, using Buffer and Hootsuite.

• MODON: set up a domain and Drive environment, administered users and coordinated translation and publishing across four languages.

• Aromatic, Rasma and Rasees: managed Zid products and pricing and coordinated design, video, approvals and social publishing. Makhazen Alenaya: followed content delivery through publication.

• Weqaa, Nusuk Hajj, Umrah and Ziyarah Forum, and the Authority for the Care of Persons with Disabilities: managed client accounts and coordinated requested work with the team.

Wida Internal Services and Operations Platform

• Designed, developed and launched a platform used by 100 employees, covering requests, task assignment, approvals, users, permissions, departments, services and clients.

• Built modules for subscriptions, domains and renewals, digital assets and office/device mapping, disbursement requests and signatures, reports, notifications and management oversight.

ProWorks Internal Platform

• Designed, developed and launched an internal platform similar to Wida's to organize company services and work tracking; the platform is in use by employees.

Wida Website and Bilingual Content Management

• Manage the public website, add and update Arabic and English content, lead the programming team and coordinate website changes.

wida.sa

Client Website Development and Launch

• Makhazen Alenaya, Strategic Consultants Cooperative and Alfayez Law: built and launched websites and set up business email. The cooperative engagement also included domain setup, Google Workspace and social accounts.
